## **THE FEI CODE OF CONDUCT**

### **FOR THE WELFARE OF THE HORSE**

The Fédération Equestre Internationale (FEI) expects all those involved in international equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

1. At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack, and transportation.
2. Horses and Athletes must be fit, competent and in good health before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.
3. Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the event.
4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper veterinary care, competition injuries, euthanasia and retirement.
- 5. The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise.**

A full copy of this Code can be obtained from the Fédération Equestre Internationale, HM King Hussein I Building, Chemin des Délices 9, 1006 Lausanne, Switzerland. Telephone: +41 21 310 47 47. The Code is available in English & French. The Code is also available on the FEI's website: [www.fei.org](http://www.fei.org).

## **2. HEALTH REQUIREMENTS FOR THE ENTRY OF HORSES**

Health requirements at frontier crossings:

### **HORSES FROM EU COUNTRIES**

All horses from EU countries must travel on a health certificate issued by an official veterinarian from the domicile country. The health certificates must be according to health certificates issued by the Norwegian Animal Health Authorities. (Directive 90/426)

### **HORSES FROM OTHER COUNTRIES**

As the rules for import and export of horses from a third country into EU countries for the time being are changing rapidly and administered differently from nation to nation, riders from countries outside the EU are kindly advised to seek information about these rules before leaving their home-stables in order to avoid waiting time at the border.

The request of health documents for return has to be made on arrival in the secretary's office.

### **3. PASSPORTS**

**"General Regulations", 23<sup>rd</sup> Edition, effective 1st January 2009, updates effective 1<sup>st</sup> January 2012 will apply:**

#### **3.1 Art. 137.1**

Every horse entered for any competition at CNs or CIMs (see Appendix E) in a country other than the country of the Horse's nationality and all Horses entered for other CIs, CIOs, FEI Championships, Regional, Olympic Games and Paralympic Games, whether at home or away from the country of its nationality (see GRs 139.2), must have an official, valid FEI passport, or a national passport approved by the FEI and accompanied by an FEI Recognition Card and, when applicable, an FEI registration number, as a means of identification and to establish ownership. In the case of horses permanently resident in a member state of the European Union, all horses must have an acceptable National EU approved passport in compliance with regulation (EC) No 504/2008, to which an FEI recognition is applied. The exception to the latter being the possession of AM FEI passport which has been continually revalidated without any interruption.

<b>Event's Category</b>	<b>FEI Passport and or Recognition Card</b>
National Events	Not compulsory
CSI1*-2*/J-B/Y-B/Ch-B/U25-B/V-B/Am-B/P/Ch-A	Not compulsory for Horses from the host Nation – Compulsory for Horses from the invited Nations
CSI3*-5*/CSIOs/J-A/Y-A/V-A/U25-A/Am-A	Compulsory
All Championships/Games	Compulsory
CSI1*-5*-W	Compulsory

#### **3.2 Art. 137.2**

Horses taking part in CNs and CIMs (see Appendix E) and in CSIP and CSIch-A in their country of nationality are not required to have such a passport as is mentioned in paragraph 1. All such horses must be properly registered with the FEI and identifiable and, unless there is no national requirement for equine influenza vaccination in the host country and in the country of origin all horses must have a valid vaccination certificate. All horses permanently resident within a member state of the European Union, must have as minimum a suitable national EU approved passport in compliance with regulation (EC) No 504/2008.

**3.3** All FEI and/or national passports must include the full name, address and signature of the Owner as registered by the NF. The description of the Horse and the diagram must be accurately completed in order to be acceptable and the FEI and/or national passport, must include a record of all vaccinations and medication

control tests. Whenever the name of a Horse with an FEI and/or national passport is changed, or any pertinent changes are made to an FEI and/or National Passport, the NF must notify the FEI.

**3.4** NFs are responsible for issuing FEI passports and FEI Recognition Card for all Horses required to have them and for ensuring that the FEI and/or national passports are correctly completed, as specified in the VRs, prior to being authenticated by the stamp of the NF and the signature of an Official of the NF. IN ALL CASES NFs MUST BE CONTENT THAT THE DESCRIPTION OF THE HORSE MUST BE ACCURATELY COMPLETED TO A SUITABLE STANDARD. NFs must provide the identification page to the FEI for registration. The Person Responsible for a Horse at an Event is responsible for the accuracy of the FEI and/or national passport and for presenting it at the passport control, except for Events with borrowed Horses (Article 111) where it is the responsibility of the host NF

**3.4.1** As of 1 January 2010 the FEI does not issue passports for horses which are statutory subject to the European Union identification requirements laid down in Commission Regulation (EC)No 504/2008. Art. 1010 and Annex XVII, VRs apply to EU Horses documentation procedures. THE EXCEPTION BEING THE REVALIDATION OF AN FEI PASSPORT THAT HAS BEEN CONTINUOUSLY REVALIDATED WITHOUT INTERRUPTION.

**3.5** A Horse may only have one FEI passport or one national passport with an FEI Recognition Card as per paragraph 1 of this Article and one permanent FEI number. If an NF is satisfied that an FEI and/or national passport has been lost or if any section of the FEI and/or national passport is full, it may issue an FEI and/or national passport clearly marked "duplicate" and bearing the same number as the original FEI passport. The issue of a duplicate FEI and/or national passport must be reported to the FEI (see VRs). General Regulations, 23rd edition, 1 January 2009, updates effective 1 January 2011 39

**3.6** OCs must arrange for each Horse to be positively identified at the passport control during the examination on arrival, in accordance with the VRs. Any case of misleading or inaccurate information in an FEI and/or national passport, or if the Horse cannot be positively identified, must be reported to the President of the Appeal Committee, who must report the case to the FEI, giving the number of the FEI and/or national passport with the FEI Recognition Card and the name of the Horse.

**3.7** All Horses taking part in FEI Events must be registered with the FEI.

#### **4. EQUINE INFLUENZA VACCINATION, VET. REGS. ANNEX VI (except events taking place in NZL & AUS)**

From 1 January 2005 onwards, influenza vaccination for all Horses competing in FEI competitions requires a vaccination within six months + 21 days of the competition.

**4.1.** All Horses intending to participate in FEI competition must have at least received an initial primary course of two vaccinations, given between 21 and 92 days apart. Thereafter, a third dose (referred to as the first booster) must be given within 7 months after the date of administration of the second primary dose, with at least annual boosters given subsequently (i.e. within one year of the last dose).

**4.2.** If the Horse is scheduled to take part in an FEI competition, the last booster must have been given within 6 months + 21 days of arrival at the FEI Event. (The 21-day window has been provided to enable vaccination requirements to fit in with the competition schedule).

- 4.3.** No vaccination shall be given within 7 days of the day of arrival at the FEI Event.
- 4.4.** All Horses that were certified as correctly vaccinated under the previous FEI equine influenza vaccination rule prior to 1st January 2005, do not need to start a primary course again provided that they have complied with the previous rule of primary course and annual re- vaccinations and the new rule of a booster vaccination within 6months + 21 days of the day of arrival at the FEI Event.

**MEDICATION CONTROL PROGRAMME (GROUP I & II ONLY)**

The Organising Committees of FEI events within Groups I & II are advised to charge competitors the equivalent of CHF 12.50 per horse per event as a contribution towards the costs of the MCP programme.

**SAMPLING FOR PROHIBITED SUBSTANCES (Vet. Regs. Chapter V & VI and Annex III)**

Regular sampling is carried out in CCI3\* and CCI4\*, CSIs (3\*, 4\*, 5\*), CIOs, World Cup Qualifiers and Cup Finals, Championships and Games, whereas at other CIs sampling is recommended. Where testing takes place, the number of Horses tested is at the discretion of the Testing Veterinarian/Veterinary Delegate. At CCI3\* and CCI4\*, CSIs (3\*, 4\*, 5\*), CIOs, World Cup Qualifiers and Cup Finals, Championships and Games it is recommended that a minimum of 5% of all Horses (with a minimum of 3 Horses tested) must be sampled (see also VRs Art. 1016.5.).

Special guidelines are applicable for events covered by the FEI Medication Control Programme (Groups I & II only).

## **6. VETERINARY TREATMENT AND DESIGNATED TREATMENT AREAS AT FEI EVENTS:**

The 2010 FEI Veterinary Regulations include changes in the approach to the procedure for permitting treatments at FEI events, and introduces a requirement that such treatments must take place in designated treatments areas. Designated treatment areas allocated only for this purpose must be provided at events, but certain treatments as specified below may take place elsewhere by agreement with FEI Veterinary Officials (FEI Veterinary Delegates or members of the FEI Veterinary Commission) i.e. in own stables. These changes also reflect the new approach to the FEI List of Equine Prohibited Substances since 5<sup>th</sup> April 2010 which now contains an exact list of substances that are prohibited under FEI rules. See:

[www.feicleansport.org](http://www.feicleansport.org).

Permission to undertake treatments and the location where they take place, is under the control and the authority of the FEI Veterinary Officials present. The following documentation must be completed when permission to treat is required.

**Equine Therapeutic Use Exemption (ETUE) Form 1 - Authorization for Emergency Treatment (i.e. involving medication containing Prohibited Substances).** This is issued by a FEI Veterinary Official and must also be countersigned by the Ground Jury.

- Treatment generally must take place in allocated designated treatment areas for this purpose unless by special agreement with FEI Veterinary Officials. The only exception to this is a clear emergency, when a retrospective ETUE may be considered, but may not be authorized in all cases

**Equine Therapeutic Use Exemption (ETUE) Form 2 - Declaration for administration of altrenogest to mares competing in FEI competitions.** This must be submitted before the start of the event. No Ground Jury countersignature is needed.

- Treatment may take place in own stables

**Medication Form 3 - Authorization for the use of Medication not on the list of Prohibited Substances (i.e. rehydration fluids and antibiotics).**

For permission to administer these substances by injection, naso-gastric tube or nebulisation

(i.e. with saline only) it is necessary to complete Medication Form 3. For other administration methods of such substances not on the Prohibited Substances list i.e. in an oral form, this form is not required. The form does not need to be countersigned by the President of the Ground Jury.

- Treatment may be required in the designated treatment areas, but in the case of some treatments i.e. intravenous fluids, or lack of sufficient treatment areas agreement may be made for this to be undertaken in own stables
- Agreed treatment areas are required for the supervised activities of Physical Therapists, but such areas for this activity may be the horses own stable.

An agreed treatment area and supervision is not required for simple treatments such as "Ice", water, cold laser, "magnetic therapies", "heated blankets" etc.

Supervision of all such treatments by FEI Officials may take place directly or by requesting to see a copy of the relevant authorization. No treatments may take place without coming under such control and authority except in the case of a clear emergency, when a retrospective authority may be considered, but may not be issued in all cases.

#### IMPORTANT NOTICE

According to Norwegian Law there is no permissible level of Phenulbutazone, Oxyphenulbutazone, Theobromine, salicylic and arsenic. These substances must therefore be added to the list of prohibited substances as concern events taking place in Norway.

In addition, Norwegian Law does not permit physical treatment later than 4 days before 12 noon the day of the competition, by the use ultrasound, short wave therapy, magnetic field therapy, farradic current, other electrical stimuli, ionising radiation (including x-ray treatment) and other treatment/use of equipment equal to these. Further, acupuncture and chiropractic treatment are not permitted within the same time limit.

Extract from the Norwegian Regulations (unofficial translation):

Regulations on prohibited use of medications etc. and special forms of treatment of competition horses ("doping") given by the Royal Ministry of Agriculture on January 30th 1987 according to Law of December 20th 1974 no 73 on Protection of animals § 30. Chapter I. Surgical interventions, use of medications and equipment etc.

§1. Horses with nerve blocks are not allowed in competition.

Within the time limits given in § 2 a horse that has been given special medication or special treatment that may affect the horse's ability to perform or his temperament, is not allowed to participate in a competition, no matter whether the medication or treatment have had such an effect in the actual case, and no matter whether the medication or treatment was used to prevent or heal an injury or illness in the horse.

In this connection the following are counted as special medication:

- Substances that may act on the central nervous system
- Substances that may act on the autonomic nervous system
- Substances that may act on the cardiovascular system
- Substances that may act on the digestive system
- Substances that may act on blood clotting
- Antimicrobial substances
- Antihistamines
- Antimalaria- and antiparasitical substances
- Antipyretics, anaesthetics, analgesics and anti-inflammatory substances

- Diuretics
- Local anaesthetics
- Muscle relaxants and muscle stimulants
- Substances that may affect respiration
- Sex hormones, anabolic steroids and corticosteroids
- Endocrine secretions and their synthetic counterparts
- Injections and infusions of vitamins, trace elements and nutrition infusions
- Cytotoxic substances
- Nature medicine - Homeopathic substances

The following are counted as special treatment:

- Infusions and injections of blood, blood elements or blood substitutions.
- Use of inhalation mask for pharmacological active substances
- Physical treatment by the use of ultrasound, short wave therapy, magnetic field therapy, laser, transcutaneous nerve- or muscle stimuli, Faradic current, other electrical stimuli, ionising radiation (including X-ray treatment) and other treatment/use of equipment equal to these.
- Cooling of body parts by other means than cold water
- Acupuncture, chiropractic treatment
- Radioactive implants

In case of doubt, the Royal Ministry of Agriculture decides whether a treatment is permitted or not.

§ 2. Where treatment as mentioned in § 1 is concerned, there is a general time limit of 4 days (96 hours) counted from 1200 hours on the day of competition, unless other time limits have been established. These limits are:

180 days:

Implantation of substances, including injection of depot substances, other than radioactive implants.

Nevertheless, the County Official Veterinary Officer may, on application, grant an exemption, so that mares with heat of unusually strong or long lasting character, may compete after having been given an injection or implantation with hormone substance with depot effect. The application must state the reason and be followed by a veterinary certificate confirming the application.

90 days:

Anabolic substances (including androgens)

14 days:

Local and systemic use of corticosteroids, NSAIDs (phenylbutazone, oxyphenbutazone, flunixin meglumin, meclophenamin acid, naproxen etc.) and systemic use of benzylpenicillinprocain.

Injections into joints, tendon sheets etc, including diagnostic injections, transfer of

joint fluid and treatment with different pharmacological active substances, unless a

longer time limit has been established.

12 hours:

Cooling of body parts by other means than cold water.

No limit (allowed up to start):

Local use on skin of antimicrobial substances and substances with only protective, softening, absorbing, astringent, drying and keratolytic effect Local use of antimicrobial substances in the eye.

Use of saline and lubricating laxatives. It is forbidden to compete a horse that has been infused or injected with blood, blood elements or blood substitutions unless the treatment was given in conjunction with illness. In certain circumstances

Statens dyrehelsetilsyn can still give permission for such a horse to compete if the infusion/injection was given at least 60 days before.

A horse treated with radioactive implant must not compete as long as the radioactivity from the implant exceeds the natural measurement at the place of treatment (K 40).

§ 3. In connection with treatment of injury or illness it is the duty of the person responsible to inform the treating veterinarian about when the horse is due to compete.

It is the duty of the veterinarian treating a competition horse to find out whether the treatment is covered by the §§ 1 and 2. If the treatment takes place within the time limits mentioned in § 2, the person responsible must be warned that the horse must not compete.

If there is any doubt whether the treatment is covered by these regulations, a veterinary certificate must be presented to the Veterinary Delegate in good time before the competition.

It is the duty of the person responsible to inform the Veterinary Delegate before the competition on any use of medication etc and other treatment that might be covered by §§ 1 and 2.

Even if the Veterinary Delegate does not reject the horse from competing, this does not excuse the person responsible from his responsibility in the case of use of special medication or special treatment against these regulations.

#### Chapter II Sampling

§ 4-§ 9 gives the details of the sampling procedure. The testing veterinarian will give information.

#### Chapter III Miscellaneous

§ 10. If substances mentioned in § 1 are found in tissues, body fluids or excretions/secretions, this is counted as prohibited use, even if the substance was given earlier than the time limits mentioned in § 2.

The same is the case if otherwise proven that the horse has been given substance or treatment as mentioned in § 1 within the given time limits.

§ 11. In a case of proven use of special medication or special treatment that according to §§ 1 and 2 are against these regulations, or if there is reason to believe that such use has found place, the case must be brought forward to Statens dyrehelsetilsyn, which decides whether the actual case is against the regulations or not.

§ 12. The keeping of special substances, equipment for special treatment, syringes and injection needles in a stable where competition horses are stabled, is prohibited, apart from substances prescribed to a horse mentioned by name or if special permission is given to keep such equipment. During the treatment period the substances, equipment, syringes and injection needles must be kept in a locked cupboard. When the treatment is finished, unused medicine, syringes and injection needles must be removed from the stable.

§ 13. If the owner or person responsible rejects the sampling of his horse or the horse does not appear at the sampling, this is regarded as if special medication or special treatment were used against these regulations.

### **Notes to Organising Committees**

FEI Veterinary delegates are to work with Organizing Committees in advance to ensure that treatment areas are available and fit for purpose. They are also to ensure that stewards are aware of the simple guidance above with regard to when treatments areas and permission forms are required and are not.

Organizing Committees are to also ensure that there are adequately trained stewards who liaise fully with FEI Veterinary Officials to assist with the supervision of treatment areas in order to meet the above criteria. If such stewards are not available the FEI Veterinary officials are to designate individuals that can fulfill such a role. The organizing committee is also responsible for making sure the veterinary officials have an office space with a copy machine close to the FEI stables available to them so as to facilitate the required paperwork process. The FEI Veterinary Delegate is required to make only ETUE 1 available to the Ground Jury. ETUE 1, ETUE 2 and MF 3 are required to be kept by the FEI Veterinary Delegate and referenced in their report to the FEI.
